

Let's Equip Our Schools Together

Donating \$12,500.00 will outfit up to 50 students with iTouches or similar devices. With parent partnerships, your donation will likely allow the Alpine Union School District to outfit an entire grade level in a school!

These are not gaming devices but powerful personal computers that allow the teacher to spend more time teaching students while the remainder of the class writes, practices, and applies their learning!

iTouch the Future

An Alpine Union School District &
Alpine Education Foundation Partnership

Touch the Future in Alpine.

Help Us Give the Future to Every Student.

Alpine Innovation is a quest to raise student engagement and deepen learning through innovating AUSD's approach.

The district has launched an initiative to revision our schools to prepare students to be successful in a globally dynamic, economic, social, and technological world. These learning outcomes revolve around five central skills:

Critical Thinking/problem solving: these skills include reading for understanding, learning how to analyze a problem, determine possible solutions, select the best option and predict and test the outcome.

Communication: these skills include writing, listening, speaking, and artistic communications via music, video, art, dance, performance, etc.

Collaboration: these skills include working with partners and teams to make meaning, display understanding and apply the new knowledge and skill by solving student-identified problems.

Creativity: students will be able to connect disparate learning and solve complex problems by being flexible, adaptable, and perseverant.

Character/Compassion: applying skills in ways that will positively impact our community, country, & the world.

iTouch the Future

Alpine's schools are using technology to individualize, engage, and challenge students.

STUDENT SPONSOR

\$600

Student Sponsors provide the resources necessary to help three students in a class use cutting edge technology (tablet or iPod/iPad) to practice reading, writing, science, and mathematic's skills.

Furthermore, students will learn new skills in music, art, design, and apply knowledge and critical thinking to create, solve and invent.

Students learn to print and match sounds to letters

Learn what a word means, sounds like and looks like in .2 seconds!

CLASSROOM SPONSOR

\$2,000

Classroom Sponsors equip approx. ten students with mobile device computing power (purpose described above in student sponsor description)

Business/Benefactor Benefits:

Alpine Union School District and AEF Website 1-year Acknowledgement

Go anywhere in the world from satellite to street view.

Ask and receive an answer to almost any question...

GRADE LEVEL SPONSOR

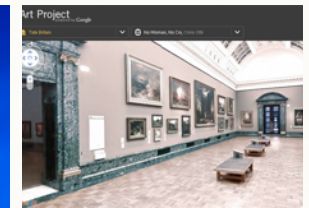

\$12,500

Grade Level Sponsors equip approx. 50 students with mobile device computing power (purpose described above in student sponsor description)

Business/Benefactor Benefits: 1 year web presence on: AUSD homepage scroll-based advertising and AEF Website, banners, flyers, President's Reception

Write today and if your idea has merit, tomorrow your word may reach 10,000
